EXPERIENCIE

• PRODUCT DESIGNER | DESIGN SYSTEMS

Jul 2025 - Now - Cella Medical Solutions

Focus on UX Research for surgical planning tools to improve the experience of healthcare professionals in critical environments. Conducted user research combining qualitative insights and quantitative data (Microsoft Clarity and product metrics) to identify opportunities.

Built and evolved a design system, driving adoption across design and engineering and centralizing resources in Figma and Zeroheight.

Used AI tools (Claude) to automate repetitive tasks in the design system.

Collaborated with business to define and implement product improvements aligned with user needs and technical feasibility.

• PRODUCT DESIGNER | DESIGN SYSTEMS

Feb 2020 - May 2025 - DisplayNote

Formed part of the product team acting as a bridge between design, product, and engineering, ensuring consistency and scalability of solutions throughout the product lifecycle.

Defined flows, wireframes, and UI for new features, actively participating in user discovery (interviews, usability testing, and market research) to support decision-making based on real user insights.

Built a multibrand design system from scratch, defining tokens, reusable components, and documentation in Zeroheight, enabling adoption across design and development teams. Drove DesignOps practices and continuous collaboration with engineering to improve processes, handoff quality, and implementation consistency.

• PRODUCT DESIGNER

Sept 2018 - Feb 2020 - StaymyWay / Operto

Redesign of an access and booking management platform based on user research, identifying and prioritizing experience improvements.

Creation of an initial UI Kit defining components, design tokens, and naming conventions. Driving the adoption of Figma within the development team through evangelization sessions and the transition from previous tools.

• PRODUCT DESIGNER

Oct 2017 - Apr 2018 - Erasmusu

Improvement of the search, product listing, and conversion funnel in a marketplace for student accommodation, along with the implementation of agile methodologies between design and development.

• PRODUCT DESIGNER

Feb 2017 - Sept 2017 - Upclose.me

Redesign and evolution of a social live video platform for content creators, improving the experience across web and mobile apps, and collaborating with iOS and Android teams in the definition and implementation of new features.

• PRODUCT DESIGNER

Apr 2015 - Jan 2017 - Droiders / Streye

Product design and research for web and applications within the Streye (Droiders) innovation lab, contributing to the definition of digital solutions.

• PRODUCT DESIGNER

Apr 2014 - March 2015 - Placeband

Led the redesign of a startup building a social product to connect music bands with their audience. It was a turning point in my career, working in a small squad composed of marketing, three developers, and the product area.

I focused on improving user experience and ensuring consistency across platforms.

• UX/UI DESIGNER

Sept 2013 - Apr 2014 - PcComponentes

Design and prototyping of landing pages in cross-functional squads across product, marketing, and development. Design of internal tools, conducting research with logistics and warehouse teams to understand operational needs and define solutions.

• UI DESIGNER

Nov 2007 - Nov 2010 - Pangea e-Solutions

Design and implementation of web interfaces for big clients combining visual design and frontend development (HTML/CSS) within project-based development squads.

SKILLS

Product Design (end-to-end) / Design Systems / Systems thinking / Prototyping / Research / Collaboration with product & engineering / Figma / Zeroheight / Git / GitHub / AI workflows (Claude) / HTML / CSS

EDUCATION

Workshop - DesignOps en acción

2024 - DesignOps Latam - Elisabeth Martínez & Turo López

Design System Specialist

2024 - Figma Camp (now Shift+R) - Raúl Marín

Workshop - Design System

2022 - Instituto Tramontana

Workshop - Design System

2021 - NeoLand - Raúl Marín

Self-taught since 2005

2005- Now
